Pathfinders are out of this world!

After 5 years of trying, one of the Pathfinder leaders from Florida successfully got NASA to take the Florida Pathfinder Patch into space on the final mission of the Space Shuttle *Discovery*, STS-133. They received a certificate of authentication that states:

From her first launch on August 30, 1984, until her final landing on March 9, 2011, *Discovery* has proudly flown over 148 million miles in 39 missions and logged a total of 365 days on orbit; the longest of any spaceship in history.

STS-133 total mission duration of 12 days, 19 hours, 3 minutes, 53 seconds, with 202 orbits around our beautiful planet and a total distance traveled of 5,304,140 miles.
