Medical Information

The Security/Medical Director, [Cyril Millett](#), recommends the clubs begin now to train their club members to attend the 2014 Forever Faithful International Pathfinder Camporee.

The University of Arizona's Sarver Health Center has created a video explaining Continuous Chest Compression CPR, a hands-only CPR method that doubles a person's chance of surviving cardiac arrest. It's easy and does not require mouth-to-mouth contact, making it more likely bystanders will try to help.

This video can be found on the [Sarver Health Center](#) website, as well as the International Camporee [Medical Team](#) page.
